

PRESS RELEASE

New Sales Partnership in the Netherlands

Goldenstedt, 05.05.2022

On Thursday, April 28, 2022, Dr. Jutta Middendorf-Bergmann (Managing Director of Ludwig Bergmann International Sales GmbH) and Dick Melessen (Managing Director of Kamps De Wild B.V.) signed an agreement for the distribution of the Bergmann product portfolio in the Netherlands.

As part of the Reesink Group, Kamps De Wild is a leading importer in the agricultural machinery sector and supplies farmers and contractors in the Netherlands with Claas and Amazone technology through 80 dealers and 11 branches.

As a leading manufacturer of manure and universal spreaders, loader and transfer wagons forage transport trailers, Bergmann offers a wide range of state-of-the-art agricultural equipment.

Bergmann spreaders are characterised by excellent precision and DLG-tested lateral and longitudinal distribution. With the new V-Spread wide spreading unit, Bergmann sets new standards in spreading technology. The effective combination of the V-shaped arrangement of the spreading discs transverse to the direction of travel and simultaneous enlargement of the diameter of the spreading discs enables even more uniform distribution of the spreading material over the spreading discs and thus also perfect distribution in the field.

In the Dutch market, which is important for loader wagons, this partnership rounds off Kamps de Wild's product portfolio. With the ROYAL, REPEX, CAREX and SHUTTLE series, Bergmann manufactures high-quality loader wagons from 26.8 to 51 m³.

Both companies are looking forward to a successful cooperation.

mann), Jonathan Jost (Sales Manager Bergmann)

Ludwig Bergmann GmbH is a medium sized family-run business in its third generation and has been successfully manufacturing agricultural machinery and vehicles for over 125 years. It is one of the major manufacturers and providers of customised technology for professional farming operations and farm contractors.

The combination of long-standing experience and contemporary, innovative technology is one of its greatest strengths. Constant focus on the needs and expectations of customers, adapting to changing technical requirements, the continuous development and improvement of products and a keen "feel" for customer requirements have made BERGMANN a reliable worldwide farming partner.

With its wide range of products, BERGMANN offers efficient and practical solutions that include **manure spreaders, universal spreaders, loader wagons, forage transport trailers, body swap systems, grain transfer trailers, beet transfer trailers and bodies for self-propelled vehicles**.
